Part I, Line 2 - Procedures for Monitoring the Use of Grant Funds

The Water Project, with our network teams and partners, co-builds water, sanitation, and hygiene (WASH) programs in geographically focused program areas. The Water Project requires in-country partners to submit financial, board, local registration, and organizational documentation yearly. Additionally, partners are required to submit yearly proposals and budgets, which both organizations closely collaborate on.

The Water Project is physically present in program areas through regional offices (service hubs), regular field/partner visits, and unannounced project site visits/audits. Additionally, regular (normally weekly) calls with each partner focus on program and organizational progress and challenges, ongoing training, and resourcing.

The Water Project requires multiple reports for every water project. Initial assessment data is collected during program/project design processes, which is vetted by The Water Project program staff. Mid-term reports and evaluations are also required to track the progress of every water project and compare outputs to budgeted plans. End-of-project completion reports are submitted upon installation of every water project. Each phase of the above reporting includes GPS coordinates, photographs, details of trainings programs and water project installation, and interviews of community members being impacted.

Each program has a monitoring and evaluation/operations and maintenance program in place. Reporting on ongoing monitoring and support of water projects is actively shared with The Water Project. The Water Project makes all project reporting visible to donors online.
